

Fieldtown

Leafield, Oxfordshire. Dances number about 28, of which 6 are stick, 2 heel-and-toe, 1 processional and 8 jigs.

A very mixed tradition, allied to Bampton, it calls for strong phrasing. Feet and arms loose, with plenty of movement at the wrist and ankle. Emphasis on the anacrusis beginning each phrase.

Figures

Foot up, Half gip, Back to back, Half rounds and Whole hey. (**Whole gip** was also used.)

Foot up is stationary, up and down with $\frac{3}{4}$ turn on **Galley**(out) to face partner.

Half round the usual practice is to face into the circle and close in at the end of the 2nd bar in each half.

In **long** dances the figures are double length and the footing differs.

Steps

4-Step, Wide back, Galley, Side step, Plain caper, Fore caper and **Upright caper** are all used, as well as several special steps in individual dances. A feint-step nearly always precedes the first strong beat in each phrase.

Wide back is usually danced as a backward **2-Step**, with the free foot swing well across the other ankle.
